THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and luxuriant at once—No more falling hair

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25c bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe regardless of everything else advertised that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not?

COL. OVERALL GEN. MANAGER

Of Reinecke Coal Co. Appointed at Meeting of Board of Directors Wednesday

OLD OFFICERS RE-ELECTED

At a meeting of the directors of the Reinecke Coal Co., held here Wednesday afternoon, Col. R. W. (Dick) Overall was made general manager and assistant secretary and treasurer of this big mining concern, succeeding the late Fred Reinecke. The other officers of the company were re-elected.

The selection of Mr. Overall to the important position of general manager of the largest producing coal mine in the State of Kentucky comes as a deserved promotion to a man who has long been in the employ of the company, and who is recognized as one of the best posted coal men in the state. He has been connected with the company for the past 26 years, and is thoroughly familiar with every branch of the business. For twelve years of this time he was employed as office man and bookkeeper. For the past six years he has held the position of assistant manager and salesman, and during this time he has traveled throughout the South in the interest of the company and has created a great demand for the Reinecke Coal.

Mr. Overall has been connected with the company almost since the opening of the mines, and has seen the business grow from a small beginning to its present standing of being the largest producing mine in Kentucky, employing something like 400 men, with a quality of coal that is second to none in Kentucky.

Col. "Dick" is popular with all of the officials of the company and the employees, and his appointment as manager of the concern meets with the universal approval of all. A better selection of a successor to the late Mr. Reinecke could not have been made.
